SUMMARY OF ST. LOUIS MARKETS.

Heavy receipts, more favorable weather for the growing crops and a general bearish tendency in foreign markets caused lower openings all around. Early in the session there was a rush of outsiders to sell, and holdings were freely let go on a rapidly descending scale. This movement continued until the last hour of the session, when these was a quick and absolute reversal of speculative sentiment. News came from many illnown Corn.—Nominally firm. Quote per ton: vas a quick and absolute reversal of speculative sentiment. News came from many sources that Eastern buyers were taking large quantities of wheat and corn with which to fill export orders. Most of the traders who had sold earlier in the day hastened to cover their shortages, and there was brisk and heavy trading until the close. The bullish news came too late to afford time to completely wipe out the initial lesses, but final quotations were only a trifle below those of the preceding day, and the tone was unmistakably strong when the gong sounded.

Corn followed the wheat movement closely, but did not recover as well on the late

May wheat opened %8%c off and closed %8%c off. May corn opened 19114c off and closed %c off,

Discount rates were steady between \$1\h2 and 51\h2 per cent for call and time loans. Spot cotton was quiet and unchanged in the local market.

BUYING BY EXPORTERS RALLIED GRAIN MARKET.

CORN DECLINED ON PROFIT-TAKING.

Early Losses Were Not Entirely Wiped Out, but Tone at Close Was Strong.

After opening weak and suffering heavy declines as a result of profit-taking sales by outside speculators all grains railled in the local market. While closing prices were a trifle below those of Wednesday. large proportions of the losses were relarge proportions of the losses were re-covered and the tone at the end of the ses-sion was bullish. At the outset nearly all indications were bearish. Receipts locally and at primary points were above the re-cent average, and there was practically no buying demand. These are being an above cent average, and there was practically no buying demand, either at home or abroad. Liverpool and other European markets opened lower and showed little strength during the first half of the session.

Reports that heavy purchases for export were being made in the Eas' entirely changed the tide of the market. Traders who had sold out on the decline, rushed to cover, and good buying continued until

the close.

REPUBLIC SPECIAL.

New York, Jan. 16.—Live Poultry—Receipts 5 cars Western and 1 Southern and 1 car Southwestern by freight and fully 1 car more by express. Receipts were quite heavy for so late in the week, and with 2 or more cars still out and trade for the week about over, an easier feeling developed and the market declined ½c per 10. to 19½ con fowls, while turkeys were also quite plenty and only finest exceeded 10c. Roosters and chickens unchanged. Ducks and geeze stendy. Pigeons slow. Fowls, heavy, 10½ c. Turkeys, Western, 10c; Southwestern 10c. Other quotations unchanged. Dressed Poultry—Receipts to-day 3.49 pkgs. The fresh receipts were moderate, but the demand was of limited proportions and of a very selective character, as the present high prices are restricting the demand to the highest class of trade and the poultry that is coming in is mostly of the medium grade and very difficult to place at its relative value. Turkeys have a moderate jobbing demand, but few large lines have been offered as yet. Rumors of attempts to corner the market by a large beef concern and operators in this city had a tendency to create a firmer feeling, and fancy graded stock was held with confidence, but the general receipts of turkeys sold slowly at 12½@12c for young hens, only the most selective reaching the hisher flaures. Scalded turkeys in moderate supply and steady. Prime heavy dry-picked forwls cleaned up pretty closely, but medium and ordinary grades sold slowly at 10½@11c, as to quality. No desirable fresh-killed roasting chickens here, but there were more or less ordinary to useful lots that sold at 106file, eoft-meated would bring 12c. Western capons active sun firm, but offerings moderate. Fancy ducks firm, but ordinary and light moved slowly. Geese cleaned up pretty closely, but medium and ordinary grades sold light novel slowly. Geese cleaned up slowly. Squabs in fairly active demand and steady. Drypacked turkeys—Western, fancy drypicked hens, 12c. do., young

Bulls, however, jumped at the opportunity to buy ing by the shorts, supported the market to a fairly steady close. May wheat closed unchanged, May corn 5 to lower, and May

Wheat.

Wheat was exceedingly nervous and erratic most of the session. The opening was badly depressed on yesterday's curb weakness and lower cables. May opened excited, ¹/₃c to ⁷/₅c lower at 50c to 75%c. Heavy liquidation was occasioned by a general call for increased margins. More stuff was thrown out than could be readily absorbed and the pit early ruled very weak. But as no failures were reported at the opening, a better feeling began to spring up and on liberal ouying, prices advanced to 50%c again. Just before clearing-house hour rumors were rife again that several houses ilberal buying, prices advanced to 50%c again. Just before clearing-house hour rumors were rife again that several houses would not be able to settle, and selling orders came from the country with a rush. Bears pounded hard and the result of the commission house raid was a quick drop to 55%c. The outside markets were also depressed, confidence for the time seemed to stand, and Liverpool declined steadily. Everything indicated a further demoralized condition of this point, when buying at these low prices set in on all hands. May struggled bravely against the concerted bear action and gradually railfied to last night's closing price. Confidence was restored when the clearing-house reported all houses settled and May closed steady, unchanged at 80%c. Local receipts were 41 cars.

Corn.

Corn was demoralized under the continued liquidation of outside longs. The Southwest was the chief source of selling. Cables were lower, and the early weakness from false rumors brought a jagged opening. Se to I'sc lower at 634c to 624c. Nearly every house continued to make heavy calls for margins, and discouraged holders. On the break active covering by shorts and some long buying influenced a fair rally, May selling to fits top price of 63446c. When wheat broke a Second time corn sagged hadly to 624c. As in wheat, there was a revival of confidence, but the depression was too much to overcome by the late demand. Cash markets were slow, and May closed weak, Sc lower at 634c. Receipts were 115 cars.

Oats shared in a measure the panicky

Oats.

Oats shared in a measure the panicky feeling in corn and wheat. Trade was not heavy, the interest in the other pits detracting from this. Outside liquidation depressed prices, and May opened \$4c to \$4c lower at 44%c to 44%c. The wheat break pushed this option down to 43%c, but professional support and short covering brought a rally to the higher opening price. May closed fairly steady, \$4c lower at 44%c. Receipts were 177 cars.

Stendy—Horses and Mules Active.

NATIVE CATTLE-Beef Steers—Supplies of cattle in the native division were light and the proportion of beef grades small. The quality was mostly light weight, medium grades of short-fed steers, about like the offerings the first three days of the week. The best on sale, 1,130-lb. steers, topped the market at \$6.5. Nothing choice to fancy was offered.

Trade was quiet and rather indifferent owing to the lightness of receipts, but prices were mainly steady throughout on all grades and weights, with light steers seiling at the decline noted on Wednesday. Nothing of consequence mained in first hands.

Milles—The run of mules during the first four days of this week amounted to little more than one-half of the volume of the same period the week preceding. At first the market started out slow, for the reason that although opening supplies were small, the demands turned up of light volume, and there was no advantages shown over the week before, or even equal advantages. But Tuesday and Wednesslay the exterior request broadened out somewhat and supplies on the commission market continuing moderate, right good tone has developed on all decent qualities, although there is no decided urgency or pressure in the demand. The fat kinds, from 15 hands up, are meeting with the best request; in fact it may be said the only satisfactory infairly good tone has developed on all decent qualities, although there has been no material change in values during the week, although the indications at the outset were that they would be weaker. However, thin, rough and very commen small mules are as dull as they have been at any

New York, Jan. 16.—Coffee—Spot Rio weak; No. 7 invoice 64-sc; mild easy; Cordova 74(6): E. Futures opened steady, with prices 10615 points lower under the usual, of late, hearths influences: cables from all foreign markets indicated great weakness: Brazilian receipts at port and interior towns still keep ahead of the movement looked for at this season, while the inquiry for spot supplies in the local field remains light and the market depressed. The feature of trading was again found in the beavy unloading of long coffee by discouraged holders, which continued all the season logic from all orders, which continued all the season logic for field points, but sentiment at the close was very bearish. The net loss for the day was 19615 points, and the final undertone steady. Total sales amounted to 71.750 bars, including: Feb. 6.65c; March 6.1596.29c; April 6.75c; May 6.35c; Dec. 6.75c; Dec. 6.856.5.00.

TRUST ISSUES IN LIGHT DE-MAND.

Newly Listed American Central I Lower and Almost Entirely

Neglected.

Traders in local stocks and bonds browsed over a wide area yesterday. Sales were scattered, and the interest of investors was not centered on any particular favorite. Values at best were steady, and in some Values at best were steady, and in some cases there were sharp declines. This was especially true of tractions, which were permitted to sag of their own weight. But Louis Transit was almost entirely ignored by buyers. The result of the day's trading was the sale of only in shares at \$22.55. United Railways preferred said lower at \$5.575, and at the menning session the 4 per cent bonds were wanted at \$22.25, but held at \$32.75. American Central, the newest of the new
